

OBJECTIVE

Obtain a full time development position where I can contribute my experience and skills in creating user-centered content for the web.

CAREER

Lead Developer at BFG Communications - *June 2012 - September 2014*

Skills and Technologies Utilized

- Worked extensively with the Microsoft's Visual Studio / Team Foundation Server environment.
- Primarily focused on front-end and C# development using MVC 4.5 and .NET Webforms.

Accomplishments and Responsibilities

- Managed a small team of developers in creating web promotions for a Fortune 500 client.
- Worked closely with the UX department in the refinement of site requirement documentation.
- Responsible for development approach documentation, scoping, risk assessment, and feasibility of future projects with Project Management.

Senior Developer at BFG Communications - *May 2011 - June 2012*

Skills and Technologies Utilized

- Front end development using CSS3/HTML5, Javascript, Flash AS3.
- Backend using PHP MVC, C# .NET Webforms.
- Additionally used the Adobe Suite, git version control, Visual Studio and Sublime.

Accomplishments and Responsibilities

- Developed full sites as well as individual programs utilizing various frameworks and languages.
- Created both mobile-first responsive websites as well as mobile-only sites.
- Integral in bringing standard version control to the development team.

Lead Developer & Web Manager at Anderson Integrated Marketing - *May 2010 - April 2011*

Skills and Technologies Utilized

- Worked heavily with PHP, MySQL and proprietary content management systems.
- Used the Adobe Creative Suite, Javascript, CSS/HTML, Flash for daily development.

Accomplishments and Responsibilities

- Developed new sites from scratch as well as maintained the agency's legacy sites.
- Worked closely with clients to develop unique, custom solutions to match their needs.
- Managed and maintained IIS web servers, domain setup, and oversaw site deployments.
